

JORDAN NEILL

Full Stack Web Developer leveraging a background in psychology to build a more intuitive user experience on the web. Known as an innovative problem-solver passionate about developing apps, with a focus on mobile-first design and development. With each project, my aim is to best engage my users for an impactful user-experience. I applied aspects of UX and agile development in recent projects.

PROJECTS

BagIt - <https://github.com/The-Callback-Cats/BagIt> - <https://bagit-and-tagit.herokuapp.com/>

In this group project we aimed to make the users shopping experience better by efficiently splitting things into categories to minimize time in the grocery store.

React.js, Express, MySQL, Sequelize, React Bootstrap, Auth0, HTML, CSS

Fitness Tracker - <https://github.com/jordanalexis6/NoSQLFitnessTracker> - <https://fitness-tracker-jan.herokuapp.com/>

I created a fitness tracker so the consumer will reach their fitness goals quicker when they track their workout progress. The consumer able to log multiple exercises in a workout on a given day. I should also be able to track the name, type, weight, sets, reps, and duration of exercise.

JavaScript, jQuery, MongoDB, Heroku, Mongoose, HTML, CSS

Weather App - <https://github.com/jordanalexis6/WeatherApp> - <https://jordanalexis6.github.io/WeatherApp/>

I used JavaScript to make a weather app. Utilizing API calls, localStorage, Momentjs, and jQuery.

JavaScript, API, jQuery, Momentjs, HTML, CSS

EDUCATION

University of Texas at Austin - Full Stack Web Development
